

*protegit has a passion for excellence...*

*The International Space Station program [ISS] is a highly complex project requiring four prime contractors and a number of nations coming together for a common mission – to build an international laboratory in low earth orbit.*

## **Enterprise Throughput Management Office [ETMO]**

**You may not have a space station to build, but do you have the ability to manage complex program of works that will deliver the business outcomes you expect?**

Using the practices of Throughput Management and Critical Chain Project Management [CCPM], we can help identify and remove constraints in your project.

Our Enterprise Throughput Management Office [ETMO] will help your business by achieving shorter project delivery cycles, greater optimisation of expensive resources and deliver a better value return on your project and program investment.

*“Protegit is one of Australia’s leading independent management consulting companies working across the full spectrum of project management and specialising in the ICT sector. We are committed to ensuring our customers always obtain the best project outcomes.”*
