

Professional Services

Protegic has experienced Project Manager's with expertise in the theory and practise of delivering successful projects, backed by proven tools, techniques, and processes.

We provide professional project management resources to fill key roles. Our people are focussed on delivering successful project outcomes and become a critical part of our client's project teams.

Protegic specialises in project management services, including the provision of dedicated:

- Program Managers
- Project Directors
- Project Managers
- Team Managers
- Estimators and Schedulers
- Project Administrators

Protegic Project Manager's are experienced in the management of multiple projects in accordance with PRINCE2, PMM, PMBOK and other methodologies, using resources drawn from across the business.

Proven Capability

Project performance is underpinned by the application of consistent and proven principles. Protegic Project Manager's are:

- committed to the task
- have a deliverables focus
- are inspired by visualising what is possible
- performance measurement driven
- accept single point accountabilities
- apply a systematic and disciplined work process
- work on the basis of no surprises

With Protegic's unique recruitment capability, we find the right resource for the right role. Protegic's interview process ensures our Project Manager's have the right skills and match the requirement for the project.

Our Project Managers are trained and mentored by an experienced Protegic Principle.

Protegic provides our staff, or will source permanent staff, to suit our client's requirements.
